Subject: FW: Additional Provider

Good Morning [REDACTED]

I am checking on the status of the additional provider; requested for Tuesday and Thursday's. It is imperative that another provider is brought in; administration will be implementing a new procedure for the CPO's (these are the additional inmates being brought in by the city and from prison on those days). Last week 89 were pre-screen by medical; however, only 20 were seen by the provider on Tuesday. I need to provide administration a status report on this matter, today. Give me a call; if you need additional information. Thanks, in advance.
